Appreciation Letter

Amici Di Raoul Follereau (AIFO India), is registered as a trust in 1998. We are a professional non-profit health and development organization that enables opportunities for persons affected by leprosy, persons with disability, women, children and members of poor and vulnerable backgrounds, through focussed healthcare, education and economic empowerment initiatives across India with the aim of providing a better quality of life and creating large scale positive change.

Amici Di Raoul Follereau (AIFO India), is extending our heartiest appreciation toward partnership with MOB Rural Health Centre, Mandya District, Karnataka state. We truly appreciate their selfless service to persons affected by leprosy (NLEP), in provisions of opportunities and avenues for rehabilitation of people with disabilities since two decades.

Amici Di Raoul Follereau (AIFO India), also wishes to continue the association in the future for the empowerment of all kinds of persons with disabilities, people affected by leprosy, children and women.

Wishing every success to MOB Rural Health Centre and the team in all their future endeavours.

with regards,

Jose Manikkathan
Director
